

”Easy access to the shelves
– regardless your height”

FLEXIMANUAL/FLEXICORNER

YOUR TABLETOP WILL REACH NEW HEIGHTS

Manual height adjustable system allows you to easily adjust the tabletop for the perfect working height for people sitting or standing by using a handle.

An economic way of providing instant height adjustment, but requiring more effort than the FlexiElectric.

Corner solutions make it possible to have the hob, sink and preparation area adjustable all together.

The Flexi systems are ideal for private homes, schools, training kitchens, nursing homes, homes for elderly people and for people with disabilities.

The handle can be removed if it is in the way.

FLEXIMANUAL/FLEXICORNER
