"Perfect working conditions
– regardless your height"

FLEXIELECTRIC/FLEXICORNER

YOUR TABLETOP WILL REACH NEW HEIGHTS

Electrical height adjustable system allows you to easily adjust the tabletop for the perfect working height for both persons sitting or standing.

Especially suitable for wheelchair users as the system allows you to instantly change the worktop height to suit your individual activity.

Corner solutions are also available with the Flexi systems so that the sink, hob and preparation area can be adjusted instantly together.

The Flexi systems are ideal for private homes, schools, training kitchens, nursing homes, homes for elderly people and for people with disabilities.

Smartbox for connecting the safety systems of several units - In principle, the collision protection devices of one or more Verti-Inside, VertiElectric, DiagonalElectric and FlexiElectric can be connected. Each system requires its own Smartbox.

Note: Smartbox cannot be combined with FlexiPlus.

* Disclaimer; "only applies when table top or cabinet moves up into another smartbox-conected safety strip or safety stop plate".
Ropox FlexiElectric and FlexiCorner solution.
Smartbox installed to avoid trapping during upwards movement*
